Normal School Course of Study

Adopted March 23, 1920

REQUIREMENTS FOR ADMISSION

1. Graduates of approved secondary schools who can present evidence of having completed fifteen units of high school work will be admitted as regular students to the state normal schools.

2. A unit shall consist of not less than thirty-six weeks of work requiring at least four periods per week of not less than forty minutes per period or its time equivalent. (Subjects not requiring out-of-class preparation or study shall require double time in estimating the units.)

3. Credentials of all students entering the state normal schools shall be received and evaluated by the normal schools and submitted to the State Department of Public Instruction for approval.

4. Adequate knowledge of the subject matter in the elementary subjects will be presupposed on the part of all students admitted to the normal schools.

5. Required units for admission:

English	3 units
Mathematics	1 unit
Science	1 unit
Social Studies	1 unit, after September, 1923, 2 units
Elective	9 units, after September, 1923, 8 units

—
Total 15 units

6. The holders of permanent and professional certificates will be given one unit credit toward admission as regular students to the normal schools for each subject of high school grade written on the certificate.

7. Advanced credit will be given for equivalent courses in approved teacher training institutions, but no student may obtain a normal school certificate without a minimum residence of one year.

8. For the present the normal schools shall, when necessary, conduct a secondary department of first class high school grade for those students who do not have similar high school facilities available in their home communities.

Curricula of the Pennsylvania State Normal Schools

STUDENTS MUST SELECT ONE OF FOUR CURRICULA

The four curricula that are offered to students have been organized upon the principle that teaching in the elementary schools can be classified into sufficiently definite types to require specialization. Each curriculum prepares for a specific type of teaching position.

The two year's work of the normal school is divided into four semesters. The work of the first semester is the same for all students. A large purpose of the work of the first semester is to acquaint students with the requirements for successful teaching in the different grades so that they may be able to decide intelligently in what grade or grades they prefer to teach. The course entitled "Introduction to Teaching" which includes observation and participation in the training school is especially designed to aid students in a wise selection of a curriculum.

At the end of the first semester students are asked to select one of the four curricula for the purpose of specializing in a specific field of teaching. The work of each curriculum must be completed in its entirety. Students may be granted the privilege of changing from one curriculum to another only on condition that the prescribed courses of any curriculum so selected must be completed before a certificate of graduation is granted.

The Four Curricula

Group 1. Kindergarten—Primary—for teachers of kindergarten and grades 1, 2 and 3.

Group 2. Intermediate grades—for teachers of grades 4, 5 and 6.

Group 3. Grammar grades and Junior High School—for teachers of grades 7, 8 and 9.

Group 4. Rural—for teachers of rural schools.

Electives

All electives are taught from the professional point of view and are of college grade of work.

All electives are to be chosen with special reference to the group in which the teacher is preparing to teach and with the approval of the principal of the school.

Each normal school is required to offer at least one elective in each of the six groups of electives. Additional electives of similar grade may be offered at the discretion of the principal of the school.

Brief Description of the Courses of Study

THE STATE COURSE OF STUDY

The state course of study is used as the basis for the courses in the teaching of elementary school subjects.

CLASSIFICATION AND NUMBERING OF COURSES

All courses are classified in seven departments. All courses numbered below 10 are common to all groups. A decimal indicates that two or more courses of the same department occur in the same semester. A single digit or the last of two digits indicates the semester in which the course occurs. The first of two digits indicates the group in which the course occurs.

EDUCATION

Education 1—Introduction to Teaching

All groups, 1st semester. 4 periods, 3 hrs. credit

The primary purpose of this course is to aid students in selecting a specific curriculum at the end of the first semester, and to imbue them with a strong professional spirit and high standards of professional ethics. It includes consideration of the different types of teaching service, the general aims of the public schools and, more specifically, the work to be accomplished by the primary, intermediate, junior high and rural schools respectively, a brief sketch of the characteristics of children in these different types of schools and the qualifications required of teachers to meet the needs of children at the different age levels in these different types of schools. The broad social aims of each type of school and its relation to the state are emphasized.

The instruction in this course is closely correlated with frequent visits of observation and participation in the training school.

Education 2—Psychology and Child Study

All groups, 2nd semester. 3 periods, 3 hrs. credit

This is an elementary course in psychology combining the important topics of both general and educational psychology, and forming the basis of the specific courses in educational theory and practice. The chief topics considered are: (a) instinctive tendencies; (b) habit-formation; (c) memory, association (including localization of functions), and economy of learning; (d) the affective life; (e) the thought processes; (f) the extent and causes of individual differences among children and the use of intelligence tests in determining them; (g) the treatment of exceptional children. About one-third of the course is given to the study of the characteristics of children

at the different levels of growth. One laboratory period each week is given to the observation of children. While this course is practically identical in all curricula, there is differentiation in the observation of children and in the laboratory experiments, each group emphasizing the characteristics of children at the age level of its particular curriculum.

Education 12—Kindergarten Theory

Group 1, 2nd semester. 2 periods, 2 hrs. credit

This course deals primarily with kindergarten aims, purposes, technique, and equipment. Special attention is given to modern tendencies in kindergarten practice, and particularly to the relation of the kindergarten to the primary grades. Observation and participation in the training school is a prominent feature of the course.

Education 13—The Teaching of Primary Subjects

Group 1, 3rd semester. 3 periods, 3 hrs. credit

This course is designed to develop the underlying principles and the details of practice in the teaching of all types of subjects to children of the primary school. It will discriminate between learning which anticipates the use of books and learning through books.

Education 13—School Efficiency

Group 1, 3rd semester. 3 periods, 3 hrs. credit

This course correlates closely with the student teaching, deriving a large part of its meaning from the teaching experience of the student. The instruction is shaped by the aim and purposes of the kindergarten and grades one, two and three, and includes such topics as class-room routine, the organization of the daily study and recitation program; hygienic standards for and care of class-rooms; the making and keeping of records; and is followed by the analysis and study of such class-room technique as the significance of the play spirit in the primary grades; the management of primary grades; the use of seat work; the value of dramatic expression; types of class-room exercises applicable in the primary grades; and the project and problem method as applicable to children of this age; and the practical application of educational tests and scales.

Education 23—School Efficiency

Group 2, 3rd semester. 3 periods, 3 hrs. credit

This course correlates closely with the student teaching, deriving a large part of its meaning from the teaching experience of the student. The instruction is colored and shaped by the purposes and nature of the work in the intermediate grades and includes class-room routine, the daily study and recitation program, hygienic standards for and care of class-rooms, the making and keeping of records, and is followed by the analysis and study of such class-room technique as methods of lesson assignment; types of class-room exercises; efficient methods of study; types of questioning; the value and uses of intelligence and educational tests; and the project and problem

method as applicable to the fourth, fifth and sixth grades. The problem of discipline in these grades receives attention.

Education 33—School Efficiency

Group 3, 3rd semester. 3 periods, 3hrs. credit

This course deals with the principles of instruction common to the teaching of all subjects in the seventh, eighth and ninth grades and is closely correlated with student teaching. Consideration will be given to such topics as types of lessons, the recitation, the assignment, the question, the project and problem method, the socialized recitation, lesson plans, supervised and independent study, the use of educational tests and scales, problems in discipline, economy in class-room management. A considerable part of the time of this course is devoted to a discussion of educational guidance problems. The course analyses the processes and problems of the important types of human occupations, the aptitudes and training required for each, the financial rewards, the hazards, the opportunities and avenues for advancement in each field. As far as possible typical occupations are studied at first hand including occupations of agriculture, manufacture, transportation, exchange, public service, professional service, domestic and personal service, and clerical occupations. The pertinent printed matter in books, pamphlets and magazines is examined and organized.

Education 43—School Efficiency

Group 4, 3rd semester. 3 periods, 3 hrs. credit

This course correlates closely with the student teaching, and gets its distinctive quality from the fact that it is made to apply to rural schools. All that has been given under it for the other groups may be taken a suggestive for this also and in this will be treated the problems peculiar to the rural school.

Education 4—History and Principles of Education

All groups, 4th semester. 4 periods 4 hrs credit

This is an intergrating course and aims to bring together and interpret the details of educational theory and practice represented by the preliminary courses, and to leave with the student a unified body of educational doctrine. The course begins with a brief review of the origin and development of present day practices and tendencies in public school education, the large emphasis being placed on these movements that have originated, or at least have come into prominence, since the time of Rousseau. The discussion of such topics as the aims and purposes of education; the development of various conceptions of educational values, and the history and present status of such educational movements as vocational education, the treatment of backward children, scientific measurements, the junior high school, the doctrine of interest, formal discipline, the transfer of learning; project and problem teaching and the socialized recitation.

Education 44—Rural School Problems
Group 4, 4th semester. 3 periods, 3 hrs. credit

The aim of this course is similar to that of the course in School Efficiency in Groups 1, 2 and 3, and includes in addition the defects of the one-room rural school treated constructively, not destructively; the advantages of consolidation, the organization of the rural school, the daily study and recitation program reducing the number of classes by combining grades, alternating grades, correlation, etc.; vitalizing the course of study, club work, community center work, heating and ventilation, play and recreation and beautifying the school grounds. The discipline of the rural school is discussed.

Education 3—Student Teaching
(Including School Efficiency and Conferences)
All groups, 3rd semester. 5 periods, 5 hrs. credit

THE TRAINING SCHOOL. The training school is the pivotal point of all the work of the normal school. It functions as a laboratory for every department of the school and articulates with peculiar intimacy with the department of education.

OBSERVATION AND PARTICIPATION. Although student teaching is confined to the senior year, junior students are given frequent opportunities for participation in the work of the training school and observation of expert teaching in the training school is a feature of all the courses in education and of many other courses throughout the curricula. One critic teacher is assigned to each class-room and demonstration lessons are taught from time to time in exemplification of the various phases of good educational practice. Group Directors, who are experts in their several lines, keep the work of the Normal School and that of the Practice School very closely linked together.

DISTRIBUTION OF TIME. A minimum of two consecutive sixty-minute periods per day for one semester is given to student teaching. Where two student teachers are assigned to the same class in the training school the assignments are so adjusted that each student teacher has a definite problem. The distribution of teaching time is designed to progressively give to the student an increasing class responsibility.

LESSON PLANS. Plan forms are used upon which all lessons taught by student teachers are placed. Critic teachers hold helpful conferences with the student teachers under their charge and approve all lesson plans of student teachers before the lessons are taught.

STUDENT TEACHERS. Every student teacher elects a grade according to the grades of the group which he has elected. Student teachers electing group 1 and group 2 have practice experience in all the subjects of the curriculum and, if possible, in all the grades of the group. Student teachers electing group 3 confine their practice teaching largely to the grades in which the student has elected to specialize and, if possible, to a grade in teaching in all the grades of the group. Student teachers electing group 4 confine their practice teaching largely to the rural one-room ungraded school and have

opportunity for contact with the community problems. All assignments for student teachers contemplate the completion of a unit problem.

TRAINING CLASSES. Training classes aim to have not less than twenty nor more than thirty pupils; that is, enough pupils to set up a normal social situation and yet not so many as to unduly tax the limited skill of the teacher.

THE PUPILS. The pupils in the training school by reason of the careful planning of each lesson and the close supervision of expert teachers, as well as through the use of abundant and elaborate equipment of the normal school, are most favorably situated to secure the best possible education.

ENGLISH AND FOREIGN LANGUAGE

ENGLISH

English 1—English Fundamentals

All groups, 1st semester. 3 periods, 3 hrs. credit

The purpose of this course is to acquaint the student with the source of material in English and the forms of correct expression.

A definite standard of written and spoken English must be acquired and maintained by all students. Further work in English without extra credit will be required of all who fail to reach and maintain this standard.

A few periods of instruction are given in the method of classifying and cataloging books and in the use of reference books, readers' guides, etc.

About a third of the time of the course is devoted to a thorough review in the basic principles of English grammar and special attention is paid to the structure of sentences and the syntax of their various parts. The course includes a brief history of the language and the principles underlying its development.

About a sixth of the time of the course is devoted to a study of words including pronunciation, diacritical marking based on a generally recognized system of phonetics and attention is paid to basic principles in etymology.

English 1, 2—English Composition

All groups, 1st and 2nd semesters. 2 periods, 2 hrs. credit each semester

This course includes a thorough study of the forms of English prose composition together with much practice in writing. The four types of English prose—narration, description, exposition and argumentation—are carefully studied and analyzed with reference to form, content and technique. Special attention is given to the essay and the short story as media of prose expression and students are required to write frequent themes illustrative of the various prose forms discussed. These are made the subject of class criticism and discussion. The teacher in charge of the class meets the students from time to time for personal consultation.

English 2—Oral Expression**All groups, 2nd semester. 2 periods 2 hrs. credit**

This course is designed primarily to insure (1) a good teaching voice and (2) effective address with facility and ease in oral expression.

English 12—The Teaching of Primary Reading**Group 1, 2nd semester. 3 periods, 3 hrs. credit**

The primary aim of this course is to enable the student to acquire skill in the teaching of reading to beginners including the development of skill in the use of phonics. The course includes a comparison of the principal methods of teaching reading, and the historical development of various methods of teaching reading is traced. Consideration is given to the psychological processes involved in reading. The student acquires familiarity with the means of measuring efficiency in reading. This course is accompanied with observations of primary reading classes as well as the actual teaching of reading.

English 43—The Teaching of Reading**Group 4, 3rd semester**

The aim of this course is to prepare the student to teach Reading to the children of all grades so that adequate attention may be given to the pupils of the one-room rural school. Oral and silent reading are both treated as are also modern tests and measurements in Reading.

English 14, 44—Children's Literature and Story Telling**Groups 1, 4, 4th semester. 3 periods, 3 hrs. credit —**

This course involves the collection and study of literature in verse and prose suited to children of this age. The selections are studied for the purpose of finding the elements contained therein that are likely to appeal strongly to children. The study of folk tales and fairy stories is included in this course.

The course in story telling covers the principles involved in telling stories to children. It involves also the application of the principles of child psychology and voice training to the telling of stories.

English 23—The Teaching of English**Group 2, 3rd semester. 3 periods, 3 hrs. credit**

The aim in this is to emphasize English in the intermediate grades so that at this impressionable period teachers may know how to fix proper language habits and to fortify them with enough of the theory to render the learner secure.

English 24—Juvenile Literature**Group 2, 4th semester. 3 periods, 3 hrs. credit**

This course is planned to give a foundation for teaching literature and silent reading to pupils of the intermediate grades.

It aims to give an adequate knowledge of those literary types that are most suitable for children of this age.

Magazines and current literature are studied and selections made from these sources as well as from standard authors.

A study is made of the difficulties that children meet in their effort to comprehend thought from the printed page. Students are made familiar with the scientific measurements of silent reading.

MATHEMATICS

Mathematics 22—The Teaching of Arithmetic

Group 2, 2nd semester. 3 periods, 3 hrs. credit

This course aims to develop a systematic presentation of the facts and principles of arithmetic with special emphasis upon the topics that are most significant in the work of the intermediate grades. The treatment illustrates at every step the most effective methods of teaching arithmetic. Attention is given to the results of the recent experiments in the psychological processes involved in the teaching of arithmetic and to the measurement of efficiency in this subject by the standard tests and scales. Observation of the teaching of arithmetic in the intermediate grades is an essential part of the course.

Mathematics 42—The Teaching of Arithmetic

Group 4, 2nd semester. 3 periods, 3 hrs. credit

This course aims to present a systematic study of the topics in arithmetic that are found in the course of study of the rural school. A special effort is made to have students understand how to use the resources of the country in supplying opportunities for the application of arithmetic. Attention is given to the psychological principles and to the standard measurements in this subject which are an essential part of the course.

SCIENCE

Science 12—Nature Study

Group 1, 1st semester. 1 period, 2 hrs. credit

The term "nature study" is commonly understood to include a study of elementary science in the rural school. The purpose of this course is to give the student a definite knowledge of the natural world around him, to give him a correct understanding of the laws which govern it, and to give him a correct use of the experimental method in the study of the natural world.

It is a rare opportunity for the rural school to give its students a course in nature study. This work is not only of great importance to the rural school, but it is also of great importance to the community. It is a rare opportunity for the rural school to give its students a course in nature study, especially in the field of biology.

Science 22—The Teaching of Geography
Group 2, 2nd semester. 3 periods, 3 hrs. credit

The emphasis in this course is upon the use of environmental materials for the purpose of developing in the minds of the children correct geographical concepts as to direction, location and geographical forms. Students have practice in choosing materials for study, as well as demonstrations of the materials and methods employed by others. An attempt is made to furnish instruction that will enable the student later to adapt his knowledge to the environment in which he is teaching. A part of the time is devoted to laboratory and field work.

Science 42—The Teaching of Geography
Group 4, 2nd semester. 3 periods, 3 credits

This is a general course in geography given from the standpoint of man's reaction to his environment and aims to co-ordinate fundamental principles of geography. The course is developed from the viewpoint of causal relations rather than the mere enumeration of facts and principles. As far as time permits some study is made of regional geography as a type of further application. Students get training in the organization and the presentation of geographical data through the use of the project and problem method; in the preparation and the use of maps, graphs, diagrams, and other illustrative material and in the problems and methods involved in teaching field geography. Students are made familiar with the use of standard educational measurements in geography. The observation of classes in the teaching of geography is a necessary part of the course. Such differentiation in the application of the above principles and methods is made for the different groups as the course of study in geography requires.

Science 44—Agriculture
Group 4, 4th semester. 3 periods, 3 credits

A large purpose of this course is to give to the teachers of rural schools an insight into and a sympathy with the basic industry of the rural population and to appreciate the larger aspects of this industry as related to our national welfare. The rural teacher's practical knowledge of agriculture and of the needs of the rural children will be of value in motivating the teaching of this material. Opportunity is offered for participation in agricultural projects, school gardens, soil-balance and soil-testing projects with their results. Through this course teachers come in touch with the leaders of agricultural improvement and with the available sources of information in agriculture and related subjects.

SOCIAL STUDIES

Social Studies 22—The Teaching of History
Group 2, 2nd semester. 3 periods, 3 hrs. credit

This course includes a study of such history as will equip students to teach the history of the intermediate grades as recommended by the state course of study. Observation in these grades is a feature of the course.

Attention is given to teaching civics in the intermediate grades. The course for fourth and fifth grades centers around the idea of community co-operation, emphasizing those who furnish us food, clothing, shelter, medical aid, light, transportation, protection, etc. The work for the sixth grade centers around the idea of industrial co-operation with emphasis upon vocational opportunities, study of community service through occupations, and the qualifications required for each occupation.

Social Studies 42—The Teaching of History

Group 4, 2nd semester. 3 periods, 3 hrs. credit

This is a composite course in the teaching of history and civics using as a basis the report of the committee of eight of the American Historical Association and Bulletin No. 23, 1915, of the United States Bureau of Education, entitled "The Teaching of Community Civics." Special emphasis is laid upon the opportunities for citizenship in rural communities and upon the ultimate dependence which all civilization has upon the products of the soil. This course aims to develop resourcefulness in the student in the use of available text and reference books.

Social Studies 14, 24, 34—Educational Sociology

First three groups, 4th semester. 3 periods, 3 hrs. credit

This course aims to clearly define the meaning of democracy and to discuss the fundamental problems in a democratic social system; to point out the community relationships as expressed in family, church, school, industry and state to the development of democracy; to emphasize the responsibilities of the individual citizen in his vocation, in his political activities, in his use of leisure, and in the many aspects of social intercourse to the life of democracy; and to all the phases of democracy to make clear the responsibilities of teachers and of public education.

Social Studies 44—Rural Sociology

Group 4, 4th semester. 3 periods, 3 hrs. credit

The primary aim of this course is the inculcation in the minds of the students of a love for and just appreciation of the importance of a healthy country life, and includes consideration of such topics as defects of present day country life, treated constructively; the lack of rural pride and rural co-operation; land tenantry, migration from the country to the city and its causes, co-operative buying and selling, the need for scientific agriculture, the country home, the country church, good roads, and the country school as an agent in intellectualizing, socializing and spiritualizing country life.

ARTS

Arts 1—Drawing

All groups, 1st semester. 3 periods, 1½ hrs. credit

The aim of this course is to enable students to teach the public school course of study in drawing, including the representation of common objects, the elementary principles of design, lettering, composition and color harmony

in their application to dress, home, school and community interests; to give students facility and confidence in their ability to draw and illustrate on the blackboard a wide range of school subjects; to develop appreciation of art and ability to teach pupils the appreciation of art, including the study of pictures. Such differentiation is made in this course for the different groups as the course of study requires including the teaching of the elements of mechanical drawing for the upper grades.

Arts 12, 22, 42—Handwriting

First, second and fourth groups, 2nd semester. 2 periods, 1 hr. credit

At the beginning of this course the handwriting of students is measured by one of the handwriting scales and if they fall below the standard set for teachers they are put in special classes for practice. The time of this course is devoted largely to methods of teaching writing and to developing skill in blackboard writing. Students are instructed in the results of the recent investigations in the psychology of writing. Through measuring their own handwriting and the handwriting of children, students become acquainted with the use of handwriting scales.

Arts 12—Industrial Arts

Group 1, 2nd semester. 4 periods, 2 hrs. credit

This course aims to instruct students in the use of various materials that will enable them to work out simple problems as they arise out of the daily necessities of food, clothing and shelter. Students learn to appreciate the problems that are within the interests of children and how such problems may be graded according to the child's control of technique. The course includes clay modeling, paper and cardboard construction and simple problems in wood and textiles. Students observe demonstrations of this work in the training school and participate in such work.

Arts 14, 24, 44—Art Education

Groups 1, 2, 3, 4th semester. 4 periods, 3 hrs. credit

Arts 1—Music

All groups, 1st semester. 2 periods, 1 hr. credit

This course presupposes a knowledge of the elements of music. The purpose of this course is to fit students to teach music in the public schools. The salient features of this course are: a treatment of the child voice, a study of the tonal and rhythmic problems of each grade, ear training, melody writing, sight reading, and part singing, a study of the song material adapted to each grade, the use of the phonograph to develop musical appreciation and the development of musical programs. Students are taught how to apply the standard musical tests to discover musical talent. Observation and practice teaching are a requirement of the course.

Arts 12, 22, 42, 14, 24, 44—Music

Groups 1, 2, 4, 2nd and 4th semesters. 2 periods, 1 hr. credit

This is a continuation of the above course in music and places emphasis upon the distinctive character of the work in music best suited to the group chosen. It is designed to make each teacher in the schools capable of teaching music under the leadership of a music supervisor; or, in the absence of such a leader, of teaching the children of her grade worthily.

HEALTH EDUCATION

Health 1.1—Personal and School Hygiene

All groups, 1st semester. 2 periods, 1½ hrs. credit

Personal Hygiene—The aim of this course is to secure in the students settled habits in the care of the body which will lead to stronger, healthier and more efficient lives. The course aims to have students understand the hygiene of posture, nutrition, clothing, exercise, fatigue, rest and sleep; the causes of ill health and disease together with their control and prevention. Only those facts of physiology and anatomy which have special significance for hygiene are considered. The instructor will hold personal conferences with students as a part of the course. The aim of this course is to equip the student with the knowledge of school and child hygiene necessary for a teacher.

School Hygiene—The following topics are included: normal growth and its standards; the ill effects of malnutrition, bad air, lack of exercise, excessive exercise, lack of proper rest, defective vision, defective hearing, adenoids, diseased tonsils; remedies for various defects and the best methods of treating them from the school standpoint; hygiene of program making; school sanitation including school furniture, ventilation, heating, lighting, water supply, toilets, etc.; regulations of state and local boards of health; the problem of nutrition as applied to school children, with laboratory exercises in food values and food preparation. Observation of good hygienic school conditions and of good hygiene teaching is an important feature of this course.

One hour each semester—a graded course in health education including physical exercises and games arranged to meet the needs of children at various stages of development through the grades. Discussion of the different phases of play and the arrangement and equipment of playgrounds. First aid and first aid kits is included.

Health 1.2 1.4—Health Education

All groups, 1st and 2nd semesters. 2 periods, 1½ hrs. credit each semester

This course is designed to give the student methods of promoting in the child care of the body of health and healthful methods of teaching cleanliness, value of dentures, care of the teeth, proper diet, tooth brush drills, proper clothing, protection of the eyes, importance of fresh air and sunlight, protection against and prevention of flu, causes of fatigue, and the value of rest and recreation.

First semester—Physical Education—floor work, apparatus, marching, rhythmic work, including clubs, wands and folk dancing, games,

athletics, including track and field events, tennis, hockey, hiking, skating, etc. Corrective work including proper exercises for students unable to take regular gymnasium work.

One hour each semester—the graded course in health education for children continued. Demonstration lessons and student teaching. Athletic activities for use on playground. Physical examination of school children.

Social Hygiene—a part of the time of this course is devoted to a discussion of problems of heredity, environment, sex hygiene and eugenics.

Foundation, State Ownership, Etc.

The West Chester State Normal School was founded in the year 1871 by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

On December 30, 1913, all the property of the school was transferred to the State, as provided in the new School Code, and it is no longer owned and controlled by a private corporation, but is strictly a State Normal School, being the first Normal School in Pennsylvania to be thus transferred. It is managed by a board of nine trustees, who are appointed for three year terms by the Superintendent of Public Instruction.

LOCATION

West Chester is a beautiful town of 13,000 inhabitants, the county seat of Chester county, and is preëminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two lines of the Pennsylvania R. R. It is also connected with Philadelphia by a trolley line, over which cars run every half hour each way, starting from the 69th and Market streets terminal of the Market street subway and elevated railway. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where connections are made with the trains on the main line; and by electric roads it is also connected with the Philadelphia & Reading R. R. at Lenape, and with the Pennsylvania R. R. at Coatesville, Downingtown and Kennett Square.

THE BUILDINGS

Are situated in the southern part of the borough, half a mile from the Court House. The main building is built of green stone with white marble, 256 by 275 feet, four stories high, with basement.

The chapel and the dining-room are in the main building and are completely fitted up. Each story has bath rooms (hot and cold water), water-closets, slop-hoppers, etc., of the best pattern. The drainage is first-class. The whole building has lately been improved; the students' rooms have all been papered, refitted and refurnished and many other improvements made to add to the efficiency of the school and the comfort of the students. In 1910-11 there was added to this building an extension of the dining-room and a three-story annex enabling it to accommodate over 500 girls; a large household building, with complete kitchen, bakery, store room and other conveniences, and connected by a covered way, was also added. Two passenger elevators make all the floors equally desirable.

The Gymnasium.—There is a first-class gymnasium, 104 by 64 feet, with an administration building attached, 29 by 36 feet. It is of stone two stories

high, fitted up with every modern improvement, including a full supply of the best apparatus, running track, bath rooms, large swimming pool, bowling alleys, etc. A thoroughly trained physician and his staff are in charge of the gymnasium, and all exercise is taken under their supervision.

Recitation Hall.—This is a stone building 185 by 80 feet, with two stories above a high basement, which is used wholly for school purposes. It has been planned with great care, and is unusually well adapted for its purpose. It is heated and ventilated by the fan system. The total cost of the building and its equipment has been over \$100,000.

Library.—A new library building has been built at a cost of \$60,000. It is 90 by 72 feet, will hold 50,000 books, and affords fine reading and reference rooms. In its second story are the school's museum and art gallery, and the collection of the Chester County Historical Society. The library now contains 20,000 well selected volumes, including the libraries of the late Dr. William Darlington and of the Chester County Cabinet of Nature Sciences, the Evans Rogers collection of historical books, for which \$1,000 was given by the late Evans Rogers; the Horace Howard Furness collection of books on Shakespeare, the gift of Dr. Furness; the Brinton collection given by Howard Futhey Brinton in memory of his parents, Dr. William B. and Ida Futhey Brinton; and the collection of Chester county bibliography made by the late H. Rush Kervey. A modern card catalogue and a trained librarian add much to the value of the library. About a hundred leading magazines and papers come regularly to the library for the use of the school.

Museum.—The Museum contains a large and valuable collection of specimens illustrating every department of Natural Science. It was begun in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly celebrated "Herbariums" of the late Dr. William Darlington, David Townsend and Josiah Hoopes, now in the Museum, are conceded to be among the most accurate and extensive private collections ever formed in this country. The mineral collections of the late Alfred Sharples have been deposited by his son, F. F. Sharples. The J. Preston Thomas collection of heads and horns, a valuable zoological collection from all parts of the world, and of Indian relics, including thousands of arrow heads, axes, pipes, etc., were collected by the late J. Peston Thomas and given to the school by his family. A fine collection of birds, made by the late Frank Darlington, has recently been added to the museum.

Wayne Hall.—This is a dormitory for boys, built of green stone, three stories high, and will accommodate 175 boys.

New Grounds.—The Trustees have added to the original ten acres required by law, until the school now has about sixty acres of fine grounds, suitably fitted up for all out-door games, a large and safe skating pond and a small, well equipped farm for practice and observation in agriculture.

Heat and Power Plant.—This plant supplies the best and safest type of lights to all parts of the buildings. It also furnishes direct steam radiation

to heat the various buildings and power for the school's laundry, which is housed therein.

Infirmary.—A complete and well-appointed school infirmary, at considerable distance from the other school buildings, has been erected. This has been planned by skillful physicians and architects, and will not only promote the comfort and recovery of any who may be ill, but will also tend to prevent the spread of contagion in the school. It is believed that this was the first school of its class to take this important step. A trained nurse is employed by the school, who gives her whole time to the care of the health of the school.

The school property has now cost about \$900,000, and is believed to be one of the best and most complete of any State Normal School in this country.

STUDENTS' ROOMS

The rooms are generally arranged for two students each. All are good sized, and are thoroughly heated by direct steam radiation. The rooms are comfortably furnished, have closets, single beds, wash stands, and are furnished with woven wire mattresses. The ladies' rooms are all carpeted. Boarding students furnish a pair of blankets or their equivalent, towels, and table napkins.

MORAL AND RELIGIOUS CULTURE

All students are required to attend the opening exercises of the school Chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians. The Young Men's and Young Women's Christian Associations are large and efficient, and maintain regular non-sectarian religious meetings.

LITERARY SOCIETIES

There are connected with the school two flourishing Literary Societies—The Moore Literary Society and the Aryan Society—composed of students and members of the Faculty.

The value of these societies as adjuncts of education is so great that the student cannot afford to neglect the opportunities they afford for literary culture.

TEXT BOOKS

Text books are sold to students at publishers' prices; but many of the books used in the course are furnished on rent to those preferring it.

MUSIC

This department, including vocal music, piano and violin, is unexcelled outside of the large cities. The teachers in charge are fine musicians, and have had long and successful experience in their profession.

A superior course, covering three years and designed to prepare candidates to be supervisors of music in the Public Schools, is being inaugurated and will build up as rapidly as candidates for it appear.

Music recitals are held every few weeks in the Chapel for the purpose of giving the pupils ease and self-control in playing and singing before an audience. For these recitals a Steinway Concert Grand Piano is used. An excellent orchestra is maintained which gives students the opportunity to learn to use, or to improve in the use of, the various instruments of an orchestra.

TEACHERS' BUREAU

The school maintains a Teachers' Bureau for its graduates and the public. Superintendents, school boards and graduates of the Normal School are invited to use this bureau without charge.

BUSINESS ITEMS

Bills may be paid by cash, check, or post office money order.

The Principal or his representative, acts for the Trustees and receipts all bills.

Bills for one semester must be settled before students will be permitted to enter upon the next, unless by special arrangement.

Diplomas will not be issued to those whose bills are unpaid.

Students entering should bring with them, in check or otherwise, the first payment for the year, \$126.00, and the enrollment fee of \$10.00, if that has not been paid. The full year's account is paid in two installments at the beginning of each semester.

ALUMNI FUNDS

A loan fund has been established by the Alumni, which now amounts to more than \$12,000. This is loaned without interest to worthy students. For details concerning this, application should be made to the Principal.

The David M. Sensenig Scholarship Fund of more than \$2,000 was contributed by the Alumni in memory of the late Prof. David M. Sensenig. Its income of \$100 is awarded each year to a member of the Senior Class who has maintained a high standard of scholarship and conduct and excels in mathematics.

MISCELLANEOUS ITEMS

When the Health Certificate and the Certificate of Vaccination are being secured for entrance to the Normal School, each candidate should request the physician to give a thorough heart examination to insure against error in exercise.

A gymnasium uniform is required of all. This should be purchased here in the supply room, so as to insure uniformity, and where they are sold at the lowest possible cost. Students who pay their enrollment fee in advance

will have a card sent them asking for certain measurements. When these are supplied the gymnasium suit will be awaiting the candidate when he arrives at the school.

The School Book Store carries a complete line of students' necessities—laundry bags, parcel post cases, etc., which can be purchased cheaper than they can be made by the individual. Athletic goods, stationery, etc., can all be purchased in the School Book Store at reasonable prices.

All students will need gymnasium shoes, which can be secured in West Chester at small expense.

All candidates for graduation are required to be able to swim.

Keys are furnished by the school, but their cost must be deposited when they are obtained, which deposit is refunded when they are returned uninjured.

All articles for the laundry must be distinctly marked. Each student is permitted to have twelve plain pieces washed each week without extra charge. While great care is taken with all articles sent to the laundry, the school will not be responsible for their loss or damage.

EXPENSES

Normal or Secondary Departments

	School Year 36 wks.	First Semester 18 wks.	Second Semester 18 wks.	Summer School 9 wks.	Less than semester or term per wk.
Board, room and laundry (12 pieces per week).....	\$252.00	\$126.00	\$126.00	\$63.00	\$7.50
Tuition (paid by secondary pupils only)	72.00	36.00	36.00	18.00	2.00
Enrollment fees		10.00	10.00	10.00	
Laboratory fees—					
Cooking, chemistry or manual training		5.00	5.00	2.00	
Physics, botany, zoology, agriculture or nature study		1.00	1.00	1.00	

Special Music Lessons

One lesson per week (30 minutes)....	35.00	17.50	17.50		1.00
Two lessons per week (30 minutes)....	70.00	35.00	35.00		2.00
Practice Piano one period per day....	5.00	2.50	2.50		.25

Meal tickets for visitors, secured at the office, 35 cents each.

Damage to rooms and furnishings (such as driving tacks or nails into walls or wood work, pasting articles upon walls, breakage, etc.,) will be charged up against occupants of the room upon estimates made by the steward.

The tuition charge is paid by the State for all regular normal students who sign the necessary papers of agreement to teach at least two years in the public schools of the state.

No deductions are made for absence during the first four weeks nor the last four weeks of the school year.

Boarding students absent for two or more consecutive weeks on account of personal illness will receive \$6.00 per week deduction.

SUMMER SESSION

of

West Chester
State Normal School

WEST CHESTER, PA.

June 26—Aug. 18
1922

SUMMER SESSION, 1922

In order that the full number of exercises announced for the session may be completed it is necessary that all new students come to West Chester on Monday morning, June 26, for registration and classification.

On reaching West Chester students should go direct to the office of West Chester High School, Church and Biddle Streets, where they will be enrolled and where boarding places will be suggested.

Letters and telegrams for students should be addressed to Principal Andrew Thomas Smith, West Chester, Pa. The telephone number is 91.

CALENDAR

June 26, Monday	7.30 p. m. Faculty meeting.
June 26, Monday	8.00 a. m. to 4.00 p. m. Registration and classification of new students.
July 2, Sunday	7.30 p. m. Assembly and Community Singing—Normal School Auditorium.
July 3, Monday and following Mondays	3.30 p. m. Faculty meeting.
July 6, Thursday	8.00 p. m. Pianoforte recital by Robert Braun—Normal School Auditorium.
July 11, Tuesday	8.00 p. m. First of Lecture Series—Lecture to be announced.
July 13, Thursday	8.00 p. m. First Concert, Summer Session Series—Normal School Auditorium.
July 18, Tuesday	8.00 p. m. Second Lecture—Lecturer to be announced.
July 20, Thursday	8.00 p. m. Second Concert, Summer Session Series—Normal School Auditorium.
July 25, Tuesday	8.00 p. m. Third Lecture—Lecturer to be announced.
July 27, Thursday	8.00 p. m. Third Concert, Summer Session Series—Normal School Auditorium.
August 1, Tuesday	8.00 p. m. Fourth Lecture—Lecturer to be announced.
August 4, Friday	8.00 p. m. Choral Concert by the Advanced Chorus, Solists to be announced.
August 8, Tuesday	8.00 p. m. Demonstration by Department of Dalcroze Eurythmics—Normal School Auditorium.
August 10, Thursday	8.00 p. m. Closing exercises of Music School; conferring of certificates on fourth year class — Normal School Auditorium.

SUMMER SESSION
 WEST CHESTER STATE NORMAL SCHOOL
 High School Building, Church and Biddle Streets
 June 26 to August 18, 1922

APPLICATION FOR ADMISSION

Please enroll my name as a student at the 1922 Summer Session

- In the course for high school graduates of eight semester hours for Partial Certificate.
- In the course for teachers with partially completed Permanent Certificates.
- In the course for teachers holding Emergency A, Professional, Emergency B, Provisional Certificates or Normal School Students.
- In the course for Secondary Students.

HIGH SCHOOL, Church and Biddle Streets, WEST CHESTER

LOCATION

West Chester is a community of some twelve thousand inhabitants in the Piedmont belt of Pennsylvania, twenty-nine miles from Philadelphia to which there is access by two macadamized auto routes, two lines of the Pennsylvania Railroad, and by trolley. It also is but eighteen miles from the city of Wilmington with which it has direct auto-bus communication hourly by macadamized state road. Because of its favorable location "beautiful West Chester" is an ideal Normal School center, and, if such superlative is allowable, it may be described as a more than beautiful summer school center.

The Battle of Brandywine was fought within three and a half miles of West Chester and the route of Cornwallis' army on the way to the battle lies within a mile and a half of the Normal School plant. Valley Forge, with its world of historic tradition, is but a short auto trip from the town.

The community was settled by the Friends and their spirit predominates its business and social life almost exclusively. It is, therefore, a literary and conservative community which has always been noted for its interest in science and education.

The summer school will be conducted in the West Chester High School building, Church and Biddle Streets, which has been secured for the purpose and the official registration will be conducted there on June 26th. We urge upon all who desire to attend the summer school that they be prompt in their coming to West Chester as it is desired to begin class work formally on Tuesday, June 27th.

THE PURPOSE OF THE SUMMER SCHOOL

This may best be expressed at the present time in the words of the following letter from Dr. Thomas A. Finegan, Superintendent of Public Instruction, sent out from his office and dated March first:

"To the Public School Teachers of the Commonwealth who lack Standard Certification:

By action of the General Assembly and the State Council of Education, standards have been established for the teaching profession in Pennsylvania which compare favorably with the best practice anywhere in the country. In order to receive the highest minimum salary fixed by law, and in order to remain in the service after July 1, 1927, teachers must have had a four-year high school education and two years of professional training or hold College, Normal School, Special or Permanent Certificates.

While every provision has been made to retain the services of faithful and competent teachers, those who lack these qualifications are required to continue their professional growth by taking not less than six semester hours of further training each year until they have reached this standard. Credit will be given for all such work already done and for each year of successful teaching experience.

Every possible effort will be made to provide this training for those teachers in the public school service who require it by extension courses and summer courses in approved institutions, and all teachers without full standard certification should immediately communicate with the superintendent under whose supervision they teach to discover exactly their status and what obligations the law places upon them for further training. They should then communicate promptly with the State Normal School or other institution which they desire to attend during the Summer Session of 1922 in order that provision can be made for them therein.

For the sake of the children in our schools, every teacher should cheerfully undertake the training necessary to fully qualify for the teaching profession.

Very sincerely yours,
(Signed) THOS. E. FINEGAN

PIEDMONT LANDSCAPE

METHODS OF MEETING THESE REQUIREMENTS

For meeting the above requirements of the Department of Public Instruction and in accordance with a motion on the minutes of the Board of Principals passed at its meeting in December, the following plans have been worked out for use at West Chester during this summer and are herewith submitted in the hope that they will be of assistance to students who wish to go to summer school and that they may help to clear up the doubts which the somewhat involved course of the State necessarily entails.

The members of the summer school will classify into four groups.

FIRST—High school graduates who wish eight semester hours credit in order to enable them to teach next fall.

SECOND—Those teachers who have already made progress towards their permanent certificates under the old rules but have failed to complete the work for such permanent certificates.

THIRD—Teachers in service who have made varying degrees of progress towards a standard certificate or towards normal school graduation, and normal school students pursuing work during the summer.

FOURTH—Secondary students who may wish to secure credits towards normal school admission.

Class I

High school graduates who wish to earn eight semester hours credit in order to enable them to teach next fall.

MINIMUM SCHEDULE OF NINE SEMESTER HOURS FOR PARTIAL ELEMENTARY CERTIFICATE

	Monday	Tuesday	Wednesday	Thursday	Friday	(Other possibilities at the designated hour)
7.45 8.45	School Efficiency	School Efficiency	School Efficiency	School Efficiency	School Efficiency	Drawing Music
8.45 9.15	CHAPEL					
9.15 10.15	Teaching of Arithmetic	Teaching of Arithmetic	Teaching of Arithmetic	Teaching of Arithmetic	Teaching of Arithmetic	Introduction to Teaching Teaching of History Teaching of Geography Teaching of English Teaching of Primary Reading
10.15 11.15	Music	Music	Music	Music	Music	Drawing School Efficiency Teaching of Primary Reading Health Education
11.15 12.15						Child Psychology

For Class I, candidates must finish the following twenty-one semester hours of work in three years. The courses in Art, Music, and Health must be taken at least one each year, or until all three are completed. The School Efficiency course must be included in the first semester's work. Arrangement of the other courses may be made by candidate and the principal of the normal school. The entire twenty-one credits may be completed in two summers, if desired, but must be completed in three.

Subject	Semester Hours
Art	3
Music	3
Health	3
School Efficiency	3
Introduction to Teaching	3
Child Psychology	3

And one of the following:

Teaching of Reading, Social Studies, English, or Mathematics each... 3

Class II

Those who have partially completed Permanent State Certificate Credentials.

1. The holding of the Professional Certificate will be considered as meeting the requirement of the cultural group.
2. For each subject still to be completed on the Permanent Certificate list, four semester hours of general professional work must be taken. The requirements for the Permanent Certificate will also include courses in Health, Music and Art, carrying three semester hours credit each.
3. The requirements for pedagogy may be met by satisfactorily completing an oral examination on such books as may be approved by the Department of Public Instruction.

PROFESSIONAL COURSES OFFERED 1922

Introduction to Teaching
 Teaching of Primary Reading
 Teaching of Arithmetic
 Teaching of History
 Teaching of Geography
 Teaching of English
 Child Psychology
 Educational Psychology
 School Efficiency
 Educational Sociology
 Rural Sociology
 Standard Measurements

Class III

Teachers in service who have made varying degrees of progress toward a standard certificate or toward normal school graduation, also normal students who wish to work during the summer.

1. Two years of successful teaching upon a professional or equivalent certificate for all teachers in service shall be presumed to be equivalent to a standard high school education.
2. Holders of Emergency Certificates A (except as noted in Section 1), Emergency Certificates B and Provisional Certificates, who have less than four years high school education, shall receive the Partial Elementary Certificate as herein prescribed with the condition that they complete the high school work. To this end each year of approved experience shall equal three units of high school work, but this credit for experience shall not be allowed after July 1, 1922.
3. Holders of Emergency Certificates A, Emergency Certificates B, and Professional Certificates, who are four-year high school graduates shall receive the Partial Elementary Certificate by pursuing eight semester hours of regular normal school subject matter.

**PROGRAM FOR TEACHERS OF CLASS III OR FOR THOSE
WISHING NORMAL SCHOOL CREDIT**

	Monday	Tuesday	Wednesday	Thursday	Friday	Other possibilities at the designated hours
7.45 8.15	English Fundamentals	English Fundamentals	English Fundamentals	English Fundamentals	English Fundamentals	Arithmetic Principles of Geography History Children's Literature and Story Telling

4. Until July 1, 1927, four semester hours of credit toward the standard certificate shall be allowed for each year of approved experience upon a partial elementary certificate or a professional certificate and a rating of "middle" or "better." If rating is below "middle" three semester hours shall be allowed. No credit shall be given for experience beyond 15 years.

All subjects of four semester hours credit will be given eight times per week with one extra hour per week of library or laboratory work at the discretion of the teacher and will receive full Normal School credit.

All subjects of three semester hours credit will be given five times per week with two extra hours library work and will receive full Normal School credit.

Subjects of two semester hours length will be given four times per week and will receive full Normal School credit. No student may secure more than twelve semester hours credit in the 1922 Summer School.

Brief Description of the Courses of Study

The state course of study is used as the basis for the courses in the teaching of elementary school subjects.

EDUCATION

Introduction to Teaching

The primary purpose of this course is to aid students in selecting a specific curriculum at the end of the first semester, and to imbue them with a strong professional spirit and high standards of professional ethics. It includes consideration of the different types of teaching service, the general aims of the public schools and, more specifically, the work to be accomplished by the primary, intermediate, junior high and rural schools respectively, a brief sketch of the characteristics of children in these different types of schools and the qualifications required of teachers to meet the needs of children at the different age levels in these different types of schools. The broad social aims of each type of school and its relation to the state are emphasized.

The instruction in this course is closely correlated with frequent visits of observation in the Training School.

Psychology and Child Study

This is an elementary course in psychology combining the important topics of both general and educational psychology, and forming the basis of the specific courses in educational theory and practice. The chief topics considered are : (a) instinctive tendencies; (b) habit-formation; (c) memory, association (including localization of functions), and economy of learning; (d) the effective life; (e) the thought processes; (f) the extent and causes of individual differences among children and the use of intelligence tests in determining them; (g) the treatment of exceptional children. About one-third of the course is given to the study of the characteristics of children at the different levels of growth. One laboratory period each week is given to the observation of children. While this course is practically identical in all curricula, there is differentiation in the observation of children and in the laboratory experiments, each group emphasizing the characteristics of children at the age level of its particular curriculum.

INDUSTRIAL ARTS

Kindergarten—Primary Group

This course aims to acquaint students with the methods and technique necessary for the teaching of purposeful and appropriate hand-work to pupils of primary grades.

Projects will be selected with reference to children's experiences and seasonal interests; and involve the use of clay, cardboard construction, weaving textiles, etc. In addition to the consideration of aesthetic training and development of technical skill, suggestions will be given pertaining to the use of hand-work in motivating and vitalizing the formal school subjects.

The Teaching of Primary Subjects

This course is designed to develop the underlying principles and the details of practice in the teaching of all types of subjects to children of the primary school. It will discriminate between learning which anticipates the use of books and learning through books.

School Efficiency

This course correlates closely with the student teaching, deriving a large part of its meaning from the teaching experience of the student. The instruction is shaped by the aim and purposes of the various grades, and includes such topics as class-room routine, the organization of the daily study and recitation program, hygienic standards for and care of class-rooms, the making and keeping of records; and is followed by the analysis and study of class-room technique suitable to the various grades, the value and uses of intelligence and educational tests, the problem and project method, problems in discipline and economy in class-room management.

History and Principles of Education

This is an integrating course and aims to bring together and interpret the details of educational theory and practice represented by the preliminary courses, and to leave with the student a unified body of educational doctrine. The course begins with a brief review of the origin and development of present day practices and tendencies in public school education, the large emphasis being placed on these movements that have originated, or at least have come into prominence, since the time of Rousseau. The discussion of such topics as the aims and purposes of education; the development of various conceptions of educational values, and the history and present status of such educational movements as vocational education, the treatment of backward children, scientific measurements, the junior high school, the doctrine of interest, formal discipline, the transfer of learning; project and problem teaching and the socialized recitation.

Rural School Problems

The aim of this course is similar to that of the course in School Efficiency in Groups 1, 2 and 3, and includes in addition the defects of the one-room Rural School treated constructively, not destructively; the advantages of consolidation, the organization of the rural school, the daily study and recitation program reducing the number of classes by combining grades, alternating grades, correlation, etc.; vitalizing the course of study, club work, community center work, heating and ventilation, play and recreation and beautifying the school grounds. The discipline of the Rural School is discussed.

Observation and Demonstration School

An observation and demonstration school will be organized for grades I to VI inclusive. A skillful teacher will be in charge of each grade. Observation will be required in the professional courses.

ENGLISH AND FOREIGN LANGUAGE

ENGLISH

English Fundamentals

The purpose of this course is to acquaint the student with the source of material in English and the forms of correct expression.

A definite standard of written and spoken English must be acquired and maintained by all students. Further work in English without extra credit will be required of all who fail to reach and maintain this standard.

A few periods of instruction are given in the method of classifying and cataloging books and in the use of reference books, readers' guides, etc.

About a third of the time of the course is devoted to a thorough review in the basic principles of English grammar and special attention is paid to the structure of sentences and the syntax of their various parts. The course includes a brief history of the language and the principles underlying its development.

About a sixth of the time of the course is devoted to a study of words including pronunciation, diacritical marking based on a generally recognized system of phonetics and attention is paid to basic principles in etymology.

English Composition

This course includes a thorough study of the forms of English prose composition together with much practice in writing. The four types of English prose—narration, description, exposition and argumentation—are carefully studied and analyzed with reference to form, content and technique. Special attention is given to the essay and the short story as media of prose expression and students are required to write frequent themes illustrative of the various prose forms discussed. These are made the subject of class criticism and discussion. The teacher in charge of the class meets the students from time to time for personal consultation.

Oral Expression

This course is designed primarily to insure (1) a good teaching voice and (2) effective address with facility and ease in oral expression.

Teaching of Primary Reading

The primary aim of this course is to enable the students to acquire skill in the teaching of reading to beginners. The following phases of the subject will receive consideration: The psychological processes involved in the teaching of reading, comparison of various reading methods, use of phonics, literary selection, story telling and means of measuring efficiency in reading.

Children's Literature and Story Telling

This course involves the collection and study of literature in verse and prose suited to children of this age. The sections are studied for the purpose of finding the elements contained therein that are likely to appeal strongly to children. The study of folk tales and fairy stories is included in this course.

The course in Story Telling covers the principles involved in telling stories to children. It involves also the application of the principles of child psychology and voice training to the telling of stories.

The Teaching of English

The aim in this is to emphasize English in the intermediate grades so that at this impressionable period teachers may know how to fix proper

language habits and to fortify them with enough of the theory to render the learner secure.

Juvenile Literature

This course is planned to give a foundation for teaching literature and silent reading to pupils of the intermediate grades.

It aims to give an adequate knowledge of those literary types that are most suitable for children of this age.

Magazines and current literature are studied and selections made from these sources as well as from standard authors.

A study is made of the difficulties that children meet in their effort to comprehend thought from the printed page. Students are made familiar with the scientific measurements of silent reading.

MATHEMATICS

The Teaching of Arithmetic

This course aims to develop a systematic presentation of the facts and principles of arithmetic with special emphasis upon the topics that are most significant in the work of the various grades. The treatment illustrates at every step the most effective methods of teaching arithmetic. Attention is given to the results of the recent experiment in the psychological processes involved in the teaching of arithmetic and to the measurement of efficiency in this subject by the standard tests and scales. Observation of the teaching of arithmetic in the grades is an essential part of the course.

General Arithmetic

This course is designed to teach the fundamental operations of arithmetic, and may be used as the elective required of all groups in first semester.

SCIENCE

Science 1—Nature Study

The term "nature study" is used in a broad sense to cover all phases of elementary science adapted to all groups. This course aims to give the student a definite body of knowledge of common forms of environmental materials and to supply the principles that will guide him in selecting and using environmental materials wherever he may be located. The course includes as wide a range of observation as possible of materials which the prospective teacher may be called upon to use in his work. Field trips are supplemented by laboratory study. For teachers of the upper grades a differentiation is made in favor of materials that supply the basis for further scientific study, especially in the field of biology.

The Teaching of Geography

The emphasis in this course is upon the use of environmental materials for the purpose of developing in the minds of the children correct geographical concepts as to direction, location and geographical forms. Students have practice in choosing materials for study, as well as demonstrations of the materials and methods employed by others. An attempt is made to furnish instruction that will enable the student later to adapt his knowledge to the environment in which he is teaching. A part of the time is devoted to laboratory and field work.

Principles of Geography

This is a general course in geography given from the standpoint of man's reaction to his environment and aims to co-ordinate fundamental principles of geography. The course is developed from the viewpoint of casual relations rather than mere enumeration of facts and principles. As far as time permits some study is made of regional geography as a type of further application. Students get training in the organization and the presentation of geographical data through the use of the project and problem method; in the preparation and the use of maps, graphs, diagrams, and other illustrative material and in the problems and methods involved in teaching field geography. Students are made familiar with the use of standard educational measurements in geography. The observation of classes in the teaching of geography is a necessary part of the course. Such differentiation in the application of the above principles and methods is made for the different groups as the course of study in geography requires.

Agriculture

A large purpose of this course is to give to the teachers of rural schools an insight into and a sympathy with the basic industry of the rural population and to appreciate the larger aspects of this industry as related to our national welfare. The rural teacher is instructed how to relate a knowledge of agriculture to the experiences of rural children with a view to motivating the teaching of common branches. Opportunity is offered for participation in agricultural projects so that teachers can initiate and supervise projects with their pupils. Through this course teachers come in touch with the leaders of agricultural improvement and learn of the available sources of information on agricultural subjects.

The Teaching of General Science

This course is designed to meet the needs of students in Group III and the selection of subject matter as well as its presentation will have this as its specific object. However, the content will also be of a character adapted to meet the needs of rural teachers and secondary students who may wish to use it for meeting entrance requirements.

Practice in Science Club organization, working up of a scientific problem, laboratory practice, study of some standard text, presentation of at least one lesson-lecture, reviewing of at least one chapter from a text book, use of a popular magazine in science for school purposes are among the assignments required of each member of the class.

SOCIAL STUDIES

The Teaching of History

This course includes a study of such history as will equip students to teach the history of the intermediate grades as recommended by the State course of study. Observation is a feature of the course.

Attention is given to teaching civics in the intermediate grades. The course for fourth and fifth grades centers around the idea of community co-operation, emphasizing those who furnish us food, clothing, shelter, medical aid, light, transportation, protection, etc. The work for the sixth grade centers around the idea of industrial co-operation with emphasis upon vocational opportunities, study of community service through occupations, and the qualifications required for each occupation.

General Course in United States History

This course has for its aims:

1. The insuring that the students have the facts of history at their disposal. This will be accomplished by a rapid survey of the entire subject.

2. Some knowledge of historical method and the historical attitude. This will be secured by a more intensive study of some particular field or biography.

3. A testing of the pupil's abilities and aptitudes as shown in some definite piece of assigned work.

Educational Sociology

This course aims to clearly define the meaning of democracy and to discuss the fundamental problems in a democratic social system; to point out the community relationships as expressed in family, church, school, industry and state to the development of democracy; to emphasize the responsibilities of the individual citizen in his vocation, in his political activities, in his use of leisure, and in many aspects of social intercourse to the life of democracy to make clear the responsibilities of teachers and of public education.

Rural Sociology

The primary aim of this course is the inculcation in the minds of the students of a love for and just appreciation of the importance of a healthy country life, and includes consideration of such topics as defects of present day country life, treated constructively; the lack of rural pride and rural co-operation; land tenantry, migration from the country to the city and its causes, co-operative buying and selling, the need for scientific agriculture, the country home, the country church, good roads, and the country school as an agent in intellectualizing, socializing and spiritualizing country life.

ARTS

Drawing

The aim of this course is to enable students to teach the public school course of study in drawing, including the representation of common objects, the elementary principles of design, lettering, composition and color harmony in their application to dress, home, school and community interests; to give students facility and confidence in their ability to draw and illustrate on the blackboard a wide range of school subjects; to develop appreciation of art and ability to teach pupils the appreciation of art, including the study of pictures. Such differentiation is made in this course for the different groups as the course of study requires including the teaching of the elements of mechanical drawing for the upper grades.

Handwriting

At the beginning of this course the handwriting of students is measured by one of the handwriting scales and if they fall below the standard set for teachers they are put in special classes for practice. The time of this course is devoted largely to methods of teaching writing and to developing skill in blackboard writing. Students are instructed in the results of the recent investigations in the psychology of writing. Through measuring their own handwriting and the handwriting of children, students become acquainted with the use of handwriting scales.

Industrial Arts

This course aims to instruct students in the use of various materials that will enable them to work out simple problems as they arise out of the daily necessities of food, clothing and shelter. Students learn to appreciate the problems that are within the interests of children and how such problems may be graded according to the child's control of technique. The course includes clay modeling, paper and cardboard construction and simple prob-

lems in wood and textiles. Students observe demonstration of this work in the training school and participate in such work.

Music

This course presupposes a knowledge of the elements of music. The purpose of this course is to fit students to teach music in the public schools. The salient features of this course are: a treatment of the child voice, a study of the tonal and rhythmic problems of each grade, ear training, melody writing, sight reading, and part singing, a study of the song material adapted to each grade, the use of the phonograph to develop musical appreciation and the development of musical programs. Students are taught how to apply the standard musical tests to discover musical talent. Observation and practice teaching are a requirement of the course.

HEALTH EDUCATION

Personal and School Hygiene

Personal Hygiene. The aim of this course is to secure in the students settled habits in the care of the body which will lead to stronger, healthier and more efficient lives. The course aims to have students understand the hygiene of posture, nutrition, clothing, exercise, fatigue, rest and sleep; the causes of ill health and disease together with their control and prevention. Only those facts of physiology and anatomy which have special significance for hygiene are considered. The instructor will hold personal conferences with students as a part of the course. The aim of this course is to equip the student with the knowledge of school and child hygiene necessary for a teacher.

School Hygiene. The following topics are included: normal growth and its standards; the ill effects of malnutrition, bad air, lack of exercise, excessive exercise, lack of proper rest, defective vision, defective hearing, adenoids, diseased tonsils; remedies for various defects and the best methods of treating them from the school standpoint; hygiene of program making; school sanitation, including school furniture, ventilation, heating, lighting, water supply, toilets, etc.; regulations of state and local boards of health; the problem of nutrition as applied to school children, with laboratory exercises in food values and food preparation. Observation of good hygienic school conditions and of good hygiene teaching is an important feature of this course.

One hour semester—a graded course in health education including physical exercises and games arranged to meet the needs of children at various stages of development through the grades. Discussion of the different theories of play, and the management and equipment of playgrounds. First aid in emergencies is included.

Health Education

This course deals with the best methods of inculcating in the child proper habits of health and includes methods of teaching cleanliness, value of bathing, care of teeth, proper diet, tooth brush drills, proper clothing, protection of the eyes, importance of fresh air and sunlight, protection against contagious diseases, causes of fatigue, and the value of rest and recreation.

Social Hygiene—A part of time of this course is devoted to a discussion of problems of heredity, environment, sex hygiene and eugenics.

LIBRARY

Both the Normal School library and the library in the High School will be used by the Normal School Summer School.

The Normal School library contains 20,000 well selected volumes and affords fine reading and reference rooms. A modern card catalogue and a trained librarian add much to the value of the library. Nearly a hundred leading magazines and papers are available for the use of the school.

CONCERTS, LECTURES

Concerts and recitals by members of the faculty and others will be open without charge to all students and to the general public.

A series of lectures by distinguished speakers has been arranged. The lectures will be open to students and the general public without charge.

A series of three concerts by eminent artists will be given in the auditorium of the main building of the Normal School on Thursday evenings, July 13, 20 and 27. The artists will be announced later.

The annual concert by the Advanced Chorus with assisting solists will be given on Friday evening, August 4.

GYMNASIUM

The floor work in Health Education will be conducted in the splendid gymnasium in the High School building, but most work will be done outdoors.

BOARD AND ROOMING

The students of the summer school will live and board in private homes in the community of West Chester, where adequate arrangements are being made by the authorities of the school for caring for the student body.

An enrollment fee of \$10.00 is paid by each student. Tuition is free on the condition that the student agrees to teach in the State of Pennsylvania on graduation from the Normal School or completion of his summer school course. The cost of room and board should not exceed \$8.00 per week. Text books can be secured in the bookroom at the Normal School.

Arrangements have been made to serve a cafeteria lunch at the High School Building at a minimum figure.

RECREATION

Trips to Brandywine, Valley Forge, Horticultural Hall, Philadelphia, have been planned and add very much to the life of the school.

MISCELLANEOUS ITEMS

When the Health Certificate and the Certificate of Vaccination are being secured for entrance to the Normal School, each candidate should request the physician to give a thorough heart examination to insure against error in exercise.

A gymnasium uniform is required of all. This should be purchased here in the supply room, so as to insure uniformity, and where they are sold at the lowest possible cost. Students who pay their enrollment fee in advance will have a card sent them asking for certain measurements. When these are supplied the gymnasium suit will be awaiting the candidate when he arrives at the school.
